

## Welcome to Oundle Golf Club

To help enjoy your round please apply the following

### **COURSE KEY RISK AREAS**

- a) A combined farm road and public footpath runs through the course on holes 1, 4, 10, 16, 17 and 18. Players must ensure the road is clear before driving.
- b) There are shared fairways or drives over other fairways on holes 2, 11, 12, 13 and 14. Players must not drive until the fairway is clear or they are called through.
- c) The 16th hole must be played as designed. Play by any other route is discourteous to fellow competitors.
- d) Players putting out on any green have priority. This applies particularly to the shared 9th/16th green and the 13th green. Players must not play to these greens until they are clear or they are called to do so.
- e) A stream runs through the course and there is a pool between the 7th and 8th fairway. Players must only use the bridges to cross the stream.

Players should not attempt to retrieve balls from the stream or pool. (There is a life belt sited at the pool)

- f) When using multi seat buggies the designated route, as displayed in the buggy, must be followed
- g) Any ball struck onto a road that borders the course, or any accident on the course, must be reported to Reception.

Members' subscriptions and visitors fees include third party liability cover.

In the event of an emergency please contact reception on 01832 273267 and state the type of emergency and precise location on the course. Staff will respond immediately. If a defibrillator is required it is located in the Clubhouse.
