

GOLF FOUNDATION 2017

This year we have decided to simplify the foundation membership. The idea of the foundation membership is to generate extra money so that it can be spent specifically on much needed course, machinery and clubhouse projects like in 2016 where it was used towards new lighting in the gents locker rooms and a new mule utility vehicle for the course. Members who join the foundation like to give a little extra towards the club knowing that they are doing a good turn but at the same time are getting a little back. As well as simplifying the foundation we have lowered the cost of the foundation membership to just £50 but maintained a decent level of incentives in return. We hope that past foundation members will renew their membership and that many other members will take out a foundation membership.
