CHIP OFF FORMAT

If two players are chipping off, the player that was last to hole the ball out on the hole will be first to chip off.

There is a designated chip off area (FLAG) on each hole marking where the players will do the chip off from. If there are four players in the group and two players have already advanced to the next hole, The players that are advancing will mark the position of the chip by putting a tee in the green and making a mark to indicate where the players ball sits.

When one player is chipping off, the other player must turn his back until the first player has made his chip and the ball is marked.

When a player chips off, the player is allowed to play the ball up, using his club to make a lie.

Sand Trap.....if you are doing a chip off from the sand trap, you are entitled to rake and place your ball.
