

# **Attention Reid Golfers**

As the season moves forward very quickly, here are a couple of friendly reminders of proper etiquette on the golf course which grounds staff occasionally come across.

Remember golf is a game of integrity and respect. Proper etiquette is having the respect to leave the golf course in better playing condition for the players behind you so they can enjoy their experience much like the first group of the day.

Any comments or concerns regarding etiquette or course conditioning please reach out to Reid Golf Course Superintendent,

Jeff Plasschaert

Please do not take divots or swing on the greens.

If your ball happens to land on a different green than intended, you may take free relief off of the green.

If you see cases like this please let someone in the pro shop know, this behavior is unacceptable and will not be tolerated!

Left photo is on #2 green and right is a divot replaced on #6 green.

On the topic of greens, please repair your ballmarks. No one wants to putt through this!

Finally, please apply bug spray and sunscreen (or anything that is an aerosol) on a cart path. The above items injure the turf much like this area on #10 fairway.

The staff at Reid appreciates your help, more importantly your fellow golfers say THANKS!
