AROUND THE CLUB

Take a Bite Out of Smoke Rise

Spring is in the air, and the April showers definitely did not keep people away from the club as we had massive turnouts for our Wednesday night and Friday night dinners.

We had a lot of fun in the month of April in the Food and Beverage department. We opened the month by having the Smoke Rise Directors Club dinner. Chef Claude prepared a five star meal that ended with a standing ovation at the end of the night.

We had many events hosted here at the club in April. On April ninth we were fortunate to be asked to help host the Tartan Day Celebration. Tartan Day is the celebration of Scottish heritage and the date in which the Declaration of Arbroath was signed. In this event the culinary team prepared an authentic Scottish meal that consisted of steak pie, garlic mashed potatoes, and topped with a Scottish Trifle for dessert. During the presentation of the haggis Chef Claude was honored as the chef of the evening.

Also, in April we had a record turnout for our annual Easter Brunch. We enjoyed a gourmet spread on our Easter buffet that consisted of Prime Rib, shrimp, chicken and many other savory dishes. Aside of the food in the clubhouse the kids took to the outdoors for an Easter

egg hunt. Plenty of eggs and candy brought smiles to the children's faces.

Here at Smoke Rise we are proud to serve you. If there is anything you would like to talk to us about or make reservations please don't hesitate to contact Jonathan Dean at JDean@smokerisecc.com.

GOLF NEWS

Turf Care

It's challenging to improve your golf game without practice. The use of the practice facility is essential for members and guests and we want to do our best to preserve the practice surfaces throughout the season.

It's no secret our practice tee has not been to the level we all would like. It's a challenging area to maintain high quality turf and recover in an efficient way. There has been a lot of thought put in place in order to enhance the practice tee area and improve turf recovery. The pattern of your divots can play a big part in how quickly the turf recovers. We want to do everything we can to improve the practice tee area and enhance the practice experience.

Therefore we are encouraging all members

and guests to practice using our "Preferred Divot Pattern" rather than a scattered type pattern or a patch pattern. It has been proven by other turf industry professionals that the "row pattern" speeds up the rate of recovery dramatically and less practice area is used through the day. We want to use the most advanced techniques in order to preserve the practice surfaces through the entire season.

Golf Operations and the Turf Care Team understand the benefits to the "Preferred Divot Pattern" and are available to assist with any questions.
