Notes:

- We will assign everyone to a group and will have different stations for everyone to rotate through.
- Topics are subject to change but may include: full swing, pitching, chipping, putting, rules, bunkers....we're also open to suggestions!
- Encourage our New Members to attend! This is a great day for them to get to know us!
- Remember, this is a clinic situation and not a private lesson. Try not to monopolize the instructor's time – we will try to see as many players as we can. Perhaps, if you are first receive individual attention at one station; you can wait for attention at the next station....just a suggestion toward equity for all participants!
