Greetings, fellow golf junkies! It looks like 2017 can't make her mind up as to what kind of weather we can expect. Hard freezes, deluges of rain and some sunny days with temps in the high 70's are some examples of the recent weather. Oh well, we'll just have to take advantages of the good days we get and use them for satisfying our golf cravings.;)

Here's something to think about: Tanglewood GC has recently changed to the GHIN system for handicapping service. GHIN system is recognized all over the world and provides you with a handicap index that can travel anywhere with you. You can even access your scoring records from your home or mobile device. We offer this service to our members for no additional charge and to guests of the Club for \$25 a year. We encourage all of our players to use the system and record all of your scores for an accurate indicator of your playing ability. We intend on hosting several events throughout the year including our club championship and we will require an updated and official handicap for all participants. Please, get some information from one of the shop staff members as to the usage of the system and if you're not a member, see about registering as a user.
