TESTIMONIAL

"Course in great shape. Fairways like a carpet. Staff made me feel welcome...course is as good as some resort courses I have played" - *sixmilecreek*

ABOUT

Measuring only 6,400 yards from the back tees, the course at Shelbyville Country Club may look easy on paper, trust us, it is not. Buck Blankenship's 1934 design has been expanded and modernized to provide a fun yet challenging golf experience. The links houses five par 5's, five par 3's and eight par 4's. While length off the tee may be an advantage on some holes, it can easily be a hindrance on others. Narrow landing areas and gently bending fairways may leave long hitters in more trouble than they bargained for. The thoughtful design and multiple teeing grounds allow shorter hitters a more level playing field to challenge the longer player. With hundreds of mature trees, fast deceptive greens, and holes cut into the undulating landscape of Shelby County, the course at SCC demands both patience and control to navigate successfully. Our course is both challenging and fair, a combination that brings enjoyment to all our members and guests.
