**New Players:**

Handicaps are averaged after 3 weeks. After 10 weeks they are calculated as an Established Player (see below).

**Subs:**

Players handicaps are calculated every week.

Lowest handicap in the league right now: 3      Highest handicap is 28

**Established Players:**

Handicap based on 10 rounds of play and dropping the high and low rounds. Calculated each week.

Example:

34,38,38,46,42,41,47,46,41,43 (drop 34 & 47) = 38+38+46+42+41+46+41+43

38+38+46+42+41+46+41+43 = 335 / 8 = 41.875 - 35(par) = **6.875** rounded up equal a handicap of **7** (100% hdcp)

6.875 x .85 = **5.84375** rounded up equal a handicap of **6** (85% hdcp)
