

Golf Tip of the Month
By: Bob Schade

GOLF TIP OF THE MONTH

Happy December Golf Nuts! What a year for golf at Cypresswood and specifically Bob Schade-Golf Instruction. I did not realize that including social media I have done over 100 tips in some format this year. Wow, where did I find the time! I still have one more left in me for 2018 and it is really good way to help you find a little more distance in 2019! Follow the instructions carefully and please email me if you have any questions!

1. Take your normal address position with your driver.
2. Slide your right foot back so that the toe of your right foot is in line with your left heel.
3. Soften your right elbow at address. Straight left arm and soft right arm! **KEY!!!!**
4. Point your left shoulder to the right of your target.
5. On the backswing, slowly swing your arms around your body keeping your inclination to the ground. Your arms will feel much lower and more in behind you.
6. Deliver the club to the back of the ball.
7. Finish your swing with your arms as straight as possible.

Please try this on the range first and then work it into your on course motion. This tip will result in a much stronger ball flight and more fun in 2019!!

Remember that if you need help I am here and ready to make you better today! Visit my website, www.bobschade.com and like my Facebook page: Bob Schade - Golf Instruction there is bonus content on both for you to enjoy, improve and have more fun playing more golf!
