

Pool * Tennis * Wellness

By: John Tasin - Monitor Supervisor

We recently had the hottest September on record and that was followed by near record setting high temperatures in October. This gave us two more summer like months for swimming and just relaxing in the sunshine at our Cypresswood Private Community Pool.

The pool area and tennis courts have been free amenities for all cypresswood residents this year. The pool area has had thousands of residents enter to swim, do water therapy exercises, or just use the pool furniture to relax in and soak up the sunshine and get a tan.

Now that the colder November temperatures have cooled down the pool water our attendance has all but disappeared. As this year's pool activities end I want to send a BIG THANK YOU to all the great people from little children to senior adults that have enjoyed the pool area and provided me with a wonderful 186 consecutive days of opportunity to get to know you as I performed my services as your Cypresswood Amenities Monitor. The cooperation and help of the parents and grandparents with the development of their children regarding the following of pool rules and safety practices was nothing short of wonderful.

The pool exercise programs have gone indoors until spring and are now being held in the clubhouse. This means you can continue your physical fitness activities right here in Cypresswood over the winter months. Speaking of physical fitness, don't forget that we have our wellness center open with some useful exercise equipment available. Also there is a tennis program you sign up for to take lessons. There are five tennis courts and a pickle ball court available for free as part of your resident's amenities program. With the expected cooler temperatures we should see an increase in these activities. Please enjoy the use of our amenities, we are all contributing, in part, to pay for them with our HOA assessment.
