

Traffic Control

By: Jeff Sehl - Chief of Traffic Control

We hope everyone enjoyed the blessings of Thanksgiving in the presence of family and friends.

All residents, including residents of Eagle Pond, must register their vehicles with Traffic Control. Many of our currently registered residents have asked about obtaining transmitters to open the resident gate.

For residents of **Eagle Pond** who wish to purchase a gate transmitter, please follow these steps:

First you and your vehicle must be registered with Onsite Management and Traffic Control. Following registration, a gate transmitter form (obtained from traffic control) must be filled out. Return the completed form to traffic control. All information will be verified, and the completed form (with approval stamp) may then be taken to the Pro Shop for purchase of a programmed transmitter.

The procedure for **all** other Cypresswood Residents who wish to purchase a gate transmitter:

All residents and their vehicles must register their vehicles with Cypresswood Traffic Control. Residents must fill out a resident vehicle decal request form for each vehicle (i.e. all vehicles associated with each address). Please include a copy of the vehicle registration in addition to a copy of proof of ownership. If you are a Cypresswood homeowner when purchasing a new vehicle please fill out and submit a resident vehicle decal request form and include a copy of the new vehicle registration. (The same format applies to renters when purchasing a new vehicle.)

Your safety remains our goal. Residents continue to speed in the resident lane as they approach the gate. They run up to the entrance gate only to apply their brakes to avoid hitting the barrier arm. Please SLOW down when entering to ensure a smooth transition into the community and to assist traffic control personnel. In addition, I continue to receive complaints about tailgaters approaching the gate. Please obey the posted 25 mph and 15 mph speed limit signs, then wait for your turn to enter and drive safely throughout our community.

Golf Cart News per Florida Statute Section 316.212, "A golf cart may be operated only during the hours between sunrise and sunset, unless the responsible governmental entity has determined that a golf cart may be operated during the hours between sunset and sunrise and the golf cart is equipped with headlights, brake lights, turn signals, and a windshield."

Finally, residents need to be aware of their surroundings. Remember that an open garage door creates an opportunity of a crime. Keep your property secure. Keep doors locked. Do not leave car keys in the ignition. Thieves will generally choose the path of least resistance.

Lets everyone work together to make our Cypresswood Community a safe place for all residents and guests.
